

Case Study

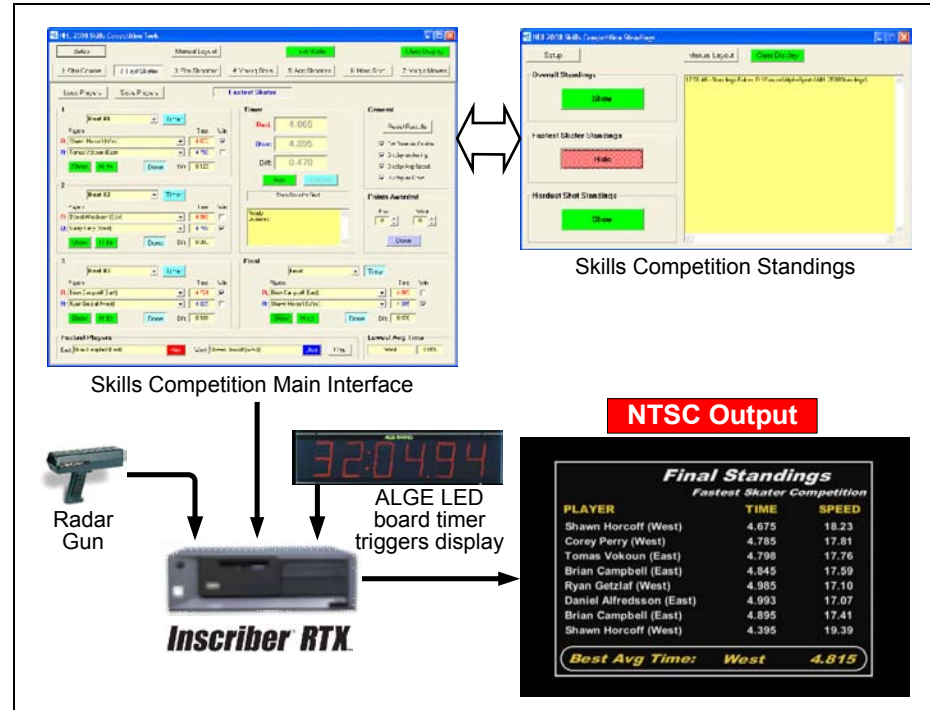

Alpha Sports – 2008 NHL All-Star Skills Competition

Customer: Alpha Sports
Application: Skills Competition Toolkit for displaying 2008 NHL All-Star Skills Competition results
Solution: Inscribe RTX, Stalker Radar Gun and LED Display/Trigger
Platform: Inscribe RTX

Alpha Sports required a single application to manage and control the display results for the 2008 NHL Skills competition.

- Main Skills Competition application controls preferences for each NHL skills event.
- Companion Standings Application displays overall summary standings and standings for individual sports.
- Radar Gun connects to main RTX system, providing data for each heat.
- Players for East and West are loaded for each heat with a Show/Hide function for final results.
- Interface for LED Timer triggers average time, average speed and automatic display of summary.
