

Case Study

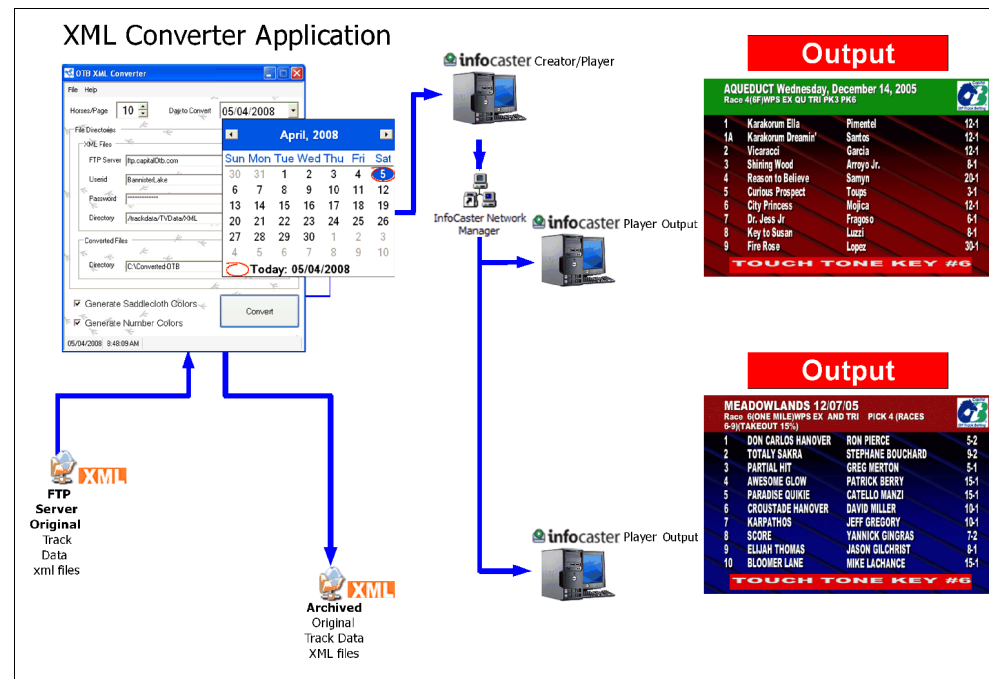

Advanced XML Parser/File Converter for INCA Infocaster.

Customer: Capital OTB
Application: XML Data Management
Solution: Advanced XML File Parser and Converter Application for Infocaster
Platform: Inscrber INCA Infocaster

Capital OTB required an advanced data management solution to parse, append and convert their racetrack data for use with INCA Infocaster ODBC.

- XML Converter application connects to FTP.
- Converter application calendar retrieves date stamp of original XML files on FTP.
- Converter parses and appends selected XML records, then converts XML files for use with Infocaster ODBC.
- Application generates an archive copy of the original XML file.
- Provides option to insert Inscrber News Edit tags to automatically generate logos and styles.
