

# Case Study

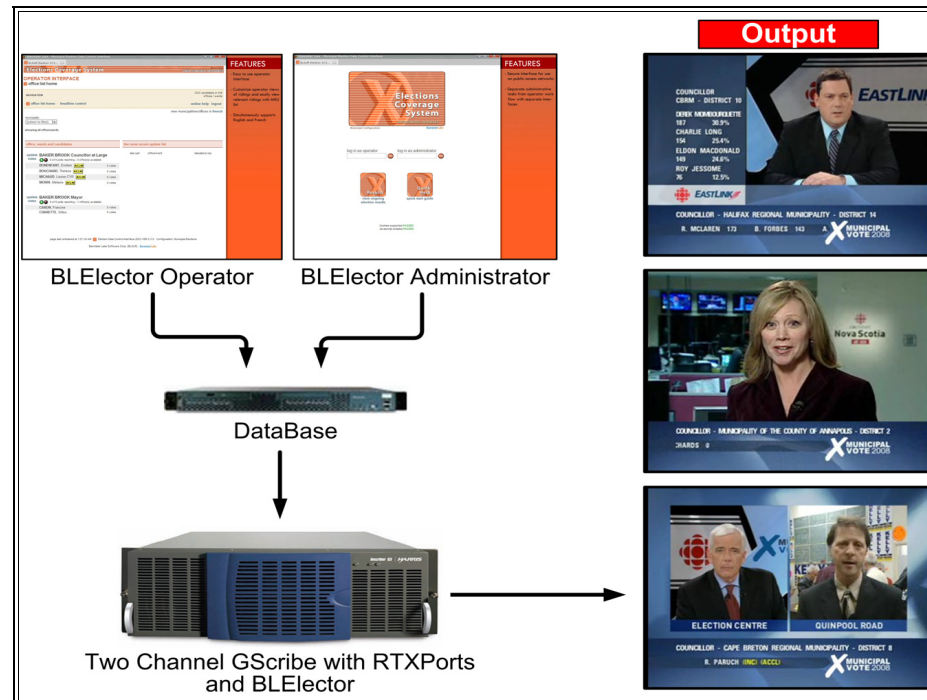

Eastlink Television/ CBC News - 2008 Nova Scotia Municipal and School Board Elections

**Customer:** Eastlink Television/ CBC News  
**Application:** Bannister Lake BLElector  
**Platform:** Inscribe/Harris Gscribe G3 with RTXPorts  
**Project:** 2008 Nova Scotia Municipal and School Board Elections

Eastlink Television and CBC News required a secure web-based application to manage and display results for the 2008 Nova Scotia Municipal and School Board Elections.

- BLElector provides Operator and Administrator forms to manage input of results and headlines.
- Headline Control form manages the order and schedule for messages displayed in the crawl region.
- Both Results and Headline Control applications write to a central database connected to the Gscribe system.
- Users from 55 regions login remotely to enter results for local ridings.
- A two channel Gscribe system and BLElector managed the DVE's, election results and graphic output.
