

Case Study

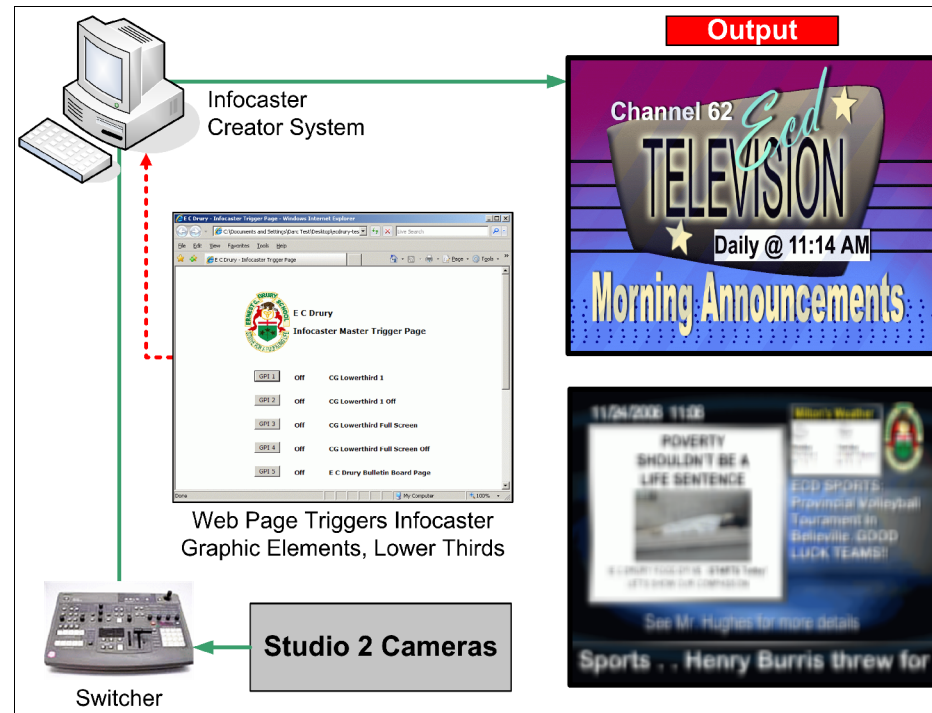

E. C. Drury High School for the Deaf – ECD Television

Customer: E. C. Drury High School for the Deaf
Application: Harris/Infocaster
Project: ECD Television

E C Drury High School for the Deaf required a cost-effective graphic display solution to manage graphic overlay for their Television Broadcasting program.

- Studio switcher output is run through Infocaster system.
- Operator uses a Web Page to control (trigger) Infocaster graphic overlay, lower thirds and time display.
- Infocaster system is programmed to run national anthem 'O'Canada' Monday through Friday.
- Infocaster content is distributed throughout the school using RF.
- Students use system to produce daily program for local Cable company.
