

Case Study

HSBC A5N – BL ScoreBug Lite

Alpha Sports required a compact and portable HD/SD Rugby ScoreBug solution for their coverage of the 2011 Asian 5 Nation Rugby tournament. Bannister Lake delivered Rugby Scorebug running on RossVideo Xpression Studio offline to manage and display all in-show graphics for the HSBC A5N tournament.

- RossVideo Xpression Studio and Rugby ScoreBug run on standard laptop with dedicated Nvidia graphics card.
- DVI-D and analog audio from laptop connects to Matrox Convert DVI.
- Matrox Convert DVI outputs HDSDI, HD to SD down convert or SDI with embedded audio to switcher.
- No additional CG is required. Rugby Scorebug also provides boards for Lineups/Reserves, Rosters, Standings, Name Keys, Intro/Weights and Substitutions.
